Craftmanship & Technology*

Combining Tradition, Experience, Craftmanship & Technology

Macduff Shipyards is a third generation company with over 65 years experience, that has earned an enviable reputation throughout Europe for producing high quality commercial vessels in steel, aluminium and wood.

The Directors are all actively involved supervising operations on a daily basis ensuring that constant high standards are maintained.

The strength of Macduff Shipyards lies in its versatility in handling such diverse projects as:

- **Ship Building** - Pilot Boats, Ferries, Tugs, Fish Farm Workboats, Landing Craft, Dredgers, Research Vessels, Fishing Vessels, Motor Yachts, Barges and General Harbour Craft
- **Refits** - including Ferries and Oil Supply Vessels. We provide full service docking, painting, engineering, fabrication and fitting out.
- **Conversions**
- **Modernisations**
- **Repairs**
- **Deck machinery packages** - We design, fabricate and install a whole range of hydraulic deck machinery packages for all types of vessels.
- **Extensive fabrication facilities are also available.**
